

REPORTING A JACK-UP PREPARES TO RESIST JAPAN

Resistance, However, Will Only Be Offered at Peking, Where 100,000 Troops Have Been Gathered.

JAP ELDER STATESMEN FAVOR AN ULTIMATUM

Reported That Japanese Have Been Notified to Leave Peking—Sir Edward Grey Refuses to Discuss Situation in Commons.

Peking, May 4.—Military preparations are being made for the defense of Peking.

According to Chinese officials, whose statements have been corroborated in other circles, the government is making no preparations elsewhere than at Peking for defense.

It is asserted in high quarters that 100,000 troops have been concentrated in the environs of Peking, but with sufficient ammunition for only a brief resistance.

Special police and military precautions have been taken throughout the city, especially around the winter palace, where President Yuan Shih Kai resides.

The Japanese legation, it is said, notified the Japanese yesterday to prepare to leave Peking. It is said many women and children are getting ready to depart.

Dr. Paul S. Reinsch, the American minister here, expressed the opinion that missionaries and other foreigners in the interior are in no danger.

He said the Chinese government would probably take refuge in the detestation against hostilities break out.

Report of Ultimatum Comes Surprised. In spite of the belief which had prevailed in China for many months that Japan coveted control of the country, the ultimatum was a surprise.

On the other hand, it is considered that Yuan Shih Kai has been in serious consequences in China if he yields to the Japanese.

Japanese Ultimatum. The ultimatum was received by the Japanese government in Peking, and it is reported that the Japanese government has accepted it.

BROUGHT BACK NATURAL HEALTH

The Facts About an Interest-
ing Case of Serious Female
Trouble Benefited by the
Use of Cardui.

Walnut Cove, N. C.—Mrs. E. A. Rothrock, of this town, says: "About two years ago I was in very bad health for three or four months."

At this time I had a serious female trouble, which lasted severely for nine weeks. I got awfully weak and could scarcely go, and my doctor said I ought to be in bed.

My two sisters, who had used Cardui with good results and who now use it as a tonic, recommended it highly to me, saying it is a fine medicine.

I felt if I lived I must have something to help me, and as other medicines had failed to relieve me, I thought I would try Cardui, the woman's tonic. At this time I was almost skin and bones.

I seemed to improve after the use of the second bottle of Cardui. The trouble stopped, I suffered less pain, and began to get back my strength and health. I took five more bottles and got back my natural state of health, also my flesh, and could do my work easily.

This spring I was run down in health; had over-worked myself. I took nearly three bottles of Cardui, as a tonic, and it brought me back to my natural state of health.

Last week I put up 74 jars of fruit, which I could not have done before taking Cardui. I am glad I heard of it, and I hope other women will too. Your case may not be as bad as the above, but even if only a mild case, we suggest that you begin today to try Cardui, the woman's tonic.

LINCOLN FAVORS RAISE FOR PULLMAN PORTERS

He Admits Wage System is Antiquated and Is Not at All Nice.

Washington, May 4.—Robert T. Lincoln, chairman of the board of directors of the Pullman company, frankly told the United States commission on industrial relations here today that he believed the system of paying sleeping car porters should be changed and that wages of Pullman car conductors should be increased. Both of these subjects he said would be taken up by the company's directors in the near future.

The son of President Lincoln freely discussed the subject of tips upon which negro porters are compelled to rely for a living. He insisted, however, that employment afforded by Pullman company had been one of the most uplifting opportunities the race has had.

Wage System for Porters.

While declaring his belief that the tipping of Pullman porters by the public would continue even if the meager salary of \$27.50 a month were increased, Mr. Lincoln admitted that the wage system for porters was antiquated and had given him considerable annoyance.

In 1907, he said, the pay of Pullman conductors was raised to \$70 a month for the first six months. The salaries of conductors on special trains, he said, were \$100 a month. The average, he thought, should be increased.

"Do you think the salary of \$27.50 paid negro porters is a minimum is enough to maintain his family in decency and decorum?" asked Chairman Walsh.

"Definitely not," Mr. Lincoln replied. "That question has annoyed me much indeed."

Mr. Walsh mentioned a porter on a Pennsylvania road who was paid \$27.50 a month, but earned \$115.

"Would you or some officers of the Pullman company like to make a similar arrangement with the company for your financial dealings?" he asked.

"Frankly confessed," Mr. Lincoln replied. "I do not think this arrangement for Pullman porters is nice at all. It is an old system."

Favors Raise for Conductors.

"I believe," Mr. Lincoln said, "there ought to be some raise in the salaries of conductors. I do not think it should be very much because their is a very easy duty."

"What do you know about the history of attempts made by Pullman company employees to organize and improve their conditions?" Chairman Walsh asked.

"I never heard anything about any such efforts until these cases came up," Mr. Lincoln replied.

"Do you hear that your organization employed picketers and discharged men because of activity in trade union affairs?" he never heard of any such thing.

"Do you think a policy of discharge for union activity is a policy of absolute loyalty to the company?" he asked.

"It is not at all," Mr. Lincoln answered. "It depends entirely upon the character and the activity of the men. I fully recognize the rights of employees to organize."

Knoxville, Tenn., May 4.—Representatives from twenty-three counties in East Tennessee and eastern Kentucky met today in the board of commerce rooms in Knoxville and recommended the route east of the Cumberland mountains for the Dixie highway from Kentucky to Chattanooga.

The meeting was called at the request of the Dixie highway commission, and more than 100 were present.

Committeemen were named from each county to prepare the data desired by the highway commission showing conditions of the road, materials on the routes available for road-building, streams to be crossed and bridges to be erected or that are now built along the line. These reports will be forwarded to the secretary of the Dixie highway commission, and a large delegation from each county will attend the meeting in Chattanooga, May 10.

Construction of the highway from the Kentucky line east of the Cumberland mountains is approved, as that route is more feasible and material for road building plentiful, and most of the road is now constructed. A spirited debate ensued in an effort to designate it as the "Lexington-Cumberland Gap-Knoxville route," with a view to locating it definitely through these points. Intervening towns objected, however, but it is practically certain that the road will touch these essential points.

CONVENTION BUREAU HONORS JACK LETTON

Civic Organizations Join in Paying Tribute to Former Leading Spirit of Atlanta.

The banquet tendered Jack Letton by the Atlanta Convention Bureau last evening was a solemn from start to finish, from the time Fred Houser led "Hail, hall" to the solos by "Wallie" West, who sang his inimitable "Va-Jama Song" and W. P. Andrews his song of the Elks. But it very nearly ended in a sob fest after speeches from his associates to Jack Letton, who was presented with many gifts and tokens of friendship.

The association is going out for several conventions for Atlanta that will mean much to the city. Principal among these are the convention of the International Association of Rotary Clubs, the Elks' convention and the twentieth of the American Medical Association.

Albert Adams, president of the local Rotary club, was introduced by Ivan E. Allen, toastmaster, to speak with reference to the Rotary club convention, which they are trying to land for 1915.

He stated that the association would meet in 1916 in San Francisco, that it was generally considered that they would meet in Cincinnati in 1917, but that he was sure that if they were invited they would come to the "Gate City" in 1915, and that he was ready to go to San Francisco and "start the ball rolling."

Mr. Allen then spoke of the Elks' convention and stated that Atlanta had answered every question satisfactorily that could have been propounded as to the advisability of Atlanta for the next meeting. Place Colonel W. P. Andrews, state president of the Elks, said that in Portland there were 84,000 Elks registered at the convention there, and that it was estimated there were 200,000 Elks in town there the day of the parade. He stated that Boston and Baltimore were making strong efforts to get the next convention, but that the Elks have never wavered the heart of the south in their fifty years of existence and that he was sure Atlanta was the one to succeed Mr. Letton and Jack R. A. Houser, who resigned.

MUNICIPAL GOLF LINKS PROPOSED FOR ATLANTA

**Park Board Directs Manager
to Secure Cost of Course
at Moseley Park.**

Municipal golf links for all Atlanta will be established at once, it was decided by the board of directors of the park board at its meeting Tuesday night.

board unanimously adopted a resolution by Commissioner J. H. Andrews providing for links at Moseley Park in West End, if the proposition can be financed.

Park Manager Cochran was directed by the board to begin at once an investigation of the matter and report on the cost of opening the proposed links in West End or other localities.

The board wants to see Atlanta the pioneer in this movement among the southern cities, and I have been working to this end ever since I became head of the body," said President Ben Lee Crew.

The progressive northern and western cities have municipal links which thousands of people, both citizens and visitors, play annually. We have ample grounds in Moseley Park for the links and could with little expense establish them at Piedmont Park. There are also other suitable locations, but we will first consider the West End site.

Atlanta now has four golf courses—Capital City club, Atlanta Athletic club, David Hill golf club and Moseley Park Golf club. Only members and invited friends have the use of these courses.

President Crew, of the park board, points out that many strangers in the city who have difficulty in gaining access to the private links, would find the municipal links open to them at all times, and this, he says, would mean great advantage for the city.

New York city has hundreds of thousands of people on her municipal golf links annually and the courses in Cleveland, Detroit, Chicago, Grand Rapids and many other cities of the larger cities have been well patronized.

M'CALL IS RECOVERING FROM EFFECT OF POISON

Macon, Ga., May 4.—(Special.)—It was stated at the Macon hospital today that P. B. McCall, the Atlanta traveling man who took bicarbonate of mercury at the Zettler house yesterday, and who has since been in a serious condition at the Macon hospital, now has a good chance to recover. His main chance hinges on whether or not the poison was gotten from his stomach before it had time to paralyze his kidneys. This is thought to be the case, as his stomach was thoroughly cleaned shortly after he took the two tablets.

McCall told the doctors at the Macon hospital that he had taken the poison by mistake, the drugstore from whom he purchased it giving him bicarbonate of mercury instead of aspirin tablets.

Mrs. McCall called at the hospital today to see her husband, and this seemed to restore his spirits considerably and he expressed a desire to recover.

McCall has a position with a New York firm, traveling out of Atlanta. He is the son of the late Dr. McCall, at one time president of Mercer university, and has many friends throughout the state.
